Logging in to the National PLICS Portal or PLICS Data Quality tool

Access to the Portal and Data Quality tool is via our website’s identity management service, OKTA. This acts as a central entrance point to many of our existing tools including the Model Hospital.

If you don’t have log-in details, please contact costing@improvement.nhs.uk

To access the log-in, click on ‘My account’ at the top right of the NHS Improvement home page (https://improvement.nhs.uk/).

The following steps will then give you access to the tools.

1. Sign in to NHS Improvement
2. Navigate to ‘Your Apps’ and click on ‘Tableau Analytics’

You have access to the following apps:

- **Model Hospital**: The Model Hospital is a new digital information service provided by NHS Improvement to support the NHS to identify and realise productivity opportunities.
- **NHS Improvement**: Access improvement tools, resources and ideas from across the health sector. Use the improvement hub to collaborate and explore your ideas with colleagues, and share your own improvement stories.
- **Tableau Analytics**: This is a new app! We’ll share more details about it soon.

3. When you see the ‘select a site’ screen press enter

4. Click on ‘Analytics Hub Products’
5. You will now see all the products available to you
