Could you help lead the NHS in your area?

Non-executive Director and Associate Non-executive Director

Candidate information pack

Reference: N1734
We value and promote diversity and are committed to equality of opportunity for all and appointments made on merit. We believe that the best boards are those that reflect the communities they serve.

We particularly welcome applications from women, people from the local black and minority ethnic communities, and disabled people who we know are under-represented in chair and non-executive roles.

Our recruitment processes are conducted in accordance with the Code of Governance to ensure that they are made on merit after a fair and open process so that the best people, from the widest possible pool of candidates, are appointed.

Appendix 3: Key dates
1. The opportunity

There is a vacancy for a Non-executive Director (NED) and an Associate NED at Yorkshire Ambulance Service NHS Trust. This is an exceptional opportunity to share your talents and expertise to make a positive difference to the lives of people in your community.

The NED and Associate NED will contribute to a range of the Trust Board committees.

The Associate NED role is used successfully in the NHS to support Board succession strategy and achieving a balance of Board level skills. Associate NEDs cannot participate in any formal vote at Board.

The successful candidate for the Associate role will be appointed by the Trust but may also be considered for appointment as a NED of the Board in future, should a vacancy arise and they have the appropriate skills.

2. The person specification

Essential criteria

You will need to have a genuine commitment to patients and the promotion of excellent health care services. You will have senior level experience in one of the following areas:

- Clinical and patient safety expertise gained from medical, nursing, allied disciplines or social care experience at a senior level in an academic, research, regulatory or clinically focused role
- Experience of leading organisational and cultural change

You will need to be able to demonstrate you can use your experience to:

- work alongside other non-executives and executive colleagues as an equal member of the board
- bring independence, external perspectives, skills and challenge to strategy development
- hold the executive to account by providing purposeful, constructive scrutiny and challenge
- shape and actively support a healthy culture for the trust
All non-executive directors must champion the standards of public life – by upholding the highest standards of conduct and displaying the principles of selflessness, integrity, objectivity, accountability, openness, honesty, and leadership.

As a future NHS leader, the successful candidate will be able to demonstrate the range of behaviours required to contribute effectively in this board level role. These are outlined in the NHS Leadership Academy’s Healthcare Leadership Model.

Applicants should live in or have strong connections with Yorkshire, the Humber or Hull and the East Riding.

- On average this role will require the equivalent to 2 to 3 days a month.
- The remuneration payable for this role is £6,157 pa.

Given the significant public profile and responsibility members of NHS Boards hold, it is vital that those appointed inspire confidence of the public, patients and NHS staff at all times. NHS Improvement makes a number of specific background checks to ensure that those we appoint are “fit and proper” people to hold these important roles. More information can be found on our website.

3. About Yorkshire Ambulance Service NHS Trust

Yorkshire Ambulance Service NHS Trust (YAS) is a successful integrated provider of emergency and urgent care and patient transport services. Their core skills and competencies include emergency and urgent care triage and response, clinical pathways design and management, healthcare technology, resilience and logistics. They employ nearly 6,000 staff who, together with over 1,150 volunteers provide services to a population of more than five million people.

In 2017-18 the Trust’s Emergency Operations Centre (EOC) staff received 922,328 emergency and routine calls, an average of over 2,500 calls a day. YAS responded to a total of 780,383 incidents through either a vehicle arriving on scene or by telephone advice. Their NHS 111 service for less urgent calls handles over 1.6m calls per year across Yorkshire and the Humber, Bassetlaw, North Lincolnshire and North-East Lincolnshire. They also provide a region-wide major incident response and resilience planning capability, medical and first aid cover for large-scale sporting events and festivals, commercial training and fleet and logistics services across an area of over 6,000 square miles.

A&E Operations, Urgent Care Practitioners, Air Ambulance

The Trust deliver an Accident and Emergency (A&E) service commissioned on a regional basis by its 23 Clinical Commissioning Groups (CCGs). A&E responds to 999 calls, providing the most appropriate clinical response for patients with emergency and urgent conditions using transport activated by their Emergency Operations Centre
(EOC) or via further assessment through the Clinical Hub. Clinically-trained staff assess and treat patients at the scene and, where necessary, transports them to an emergency department or another NHS facility such as a walk-in centre or minor injuries unit for further assessment and treatment. Alternatively, following telephone triage by a healthcare professional, the caller may be directed to another, more appropriate resource for example a GP, pharmacist, or mental health services.

They provide urgent care practitioner (UCP) schemes in a number of areas across the region, whereby paramedics with enhanced clinical skills work alongside GPs and other primary care providers to support and manage patient care within their local communities to avoid unnecessary admissions to hospital.

YAS continue to work in partnership with the Yorkshire Air Ambulance (YAA) charity to provide clinicians for an airborne response to serious emergencies and where casualties are in a difficult location. The two YAA helicopters are based at Nostell Priory near Wakefield and Topcliffe in North Yorkshire.

**Patient Transport Service (PTS) and Urgent and Inter-facility Transport**

The Patient Transport Service (PTS) represents a significant part of the Trust's operations and is commissioned differently according to local needs. PTS involves the transport of patients who have been referred for treatment to hospital outpatient departments or other treatment centres and are unable to use other transport options due to their medical condition. It also provides non-urgent patient transfers between hospitals and other healthcare providers together with patient discharge from hospitals. Their PTS is operated by staff who have been trained in first aid, moving and handling techniques and specialist driving skills.

In an increasingly competitive market they have responded to recent requests from commissioners and acute providers by increasing their provision of weekend and evening urgent transport cover and they will seek to expand this further to take pressure off 999 ambulance resources and support the national drive for seven-day services. The Trust has recently been successful in retailing or gaining new business.

**NHS 111 and Care Coordination**

YAS operate the NHS 111 service across Yorkshire and the Humber, Bassetlaw, North Lincolnshire and North-East Lincolnshire; the only regional service of its type in the country. This is a service for patients whose condition is not life-threatening, but who require urgent care and includes telephone advice and signposting to various parts of the health system to ensure they receive the right care.

The Trust also hold the contract for the West Yorkshire (in-hours and out-of-hours) Urgent Care Service and provide call-taking support to other GP out-of-hours (OOH) services. Over the life of this plan they will be seeking to make the most of their skills and infrastructure by offering their capabilities to other local health communities to assist them in operating their own local care coordination programmes.
Resilience

The Resilience and Special Services Team (RSST) plans the Trust’s response to major incidents within the region. Examples include flooding, public transport incidents, pandemic flu, and chemical, biological, radiological and nuclear (CBRN) incidents. Our Hazardous Area Response Team (HART) provides a clinical response within the immediate area of an emergency incident known as the inner cordon, particularly where there are mass casualties. An element of the HART is their Urban Search and Rescue (USAR) team which can respond to incidents involving entrapments at height, underground, in collapsed structures and other places that are difficult to reach.

Community, Volunteer and Apprenticeship Schemes

YAS receive valuable support from many community-based volunteers including Community First Responders who have been trained by the Trust to assist in their response to certain medical emergencies. Although these volunteers are always backed up by ambulance professionals, there is no doubt that their early intervention has saved many lives. The Trust also run co-responder schemes with Fire and Rescue Services across Yorkshire as well as a number of volunteer car drivers who support the delivery of their PTS. Additionally they have an award-winning apprenticeship scheme which plays an important part of their commitment to developing the skills and future prospects of younger people within their communities.

As part of their commitment to supporting and raising the profile of health issues affecting the people across the region YAS has spear-headed a national initiative taken up by all the ambulance trusts in England, ‘Re-Start a Heart’ which works extensively with schools and communities, providing life-saving training and equipment. They also support the work of local charity groups such as MacMillan Cancer Support and Yorkshire and Humber Dementia Action Alliance.

The Trust also proactively works with local communities across its large geographical footprint, for example hard to reach groups and areas of deprivation where demand for health services is known to be higher. They provide free first aid and CPR training and education in how to appropriately access health services.

Events and Commercial Services, Sporting and Events Cover, Private Ambulance Service

Another important part of their service is the provision of clinical cover at sporting events and festivals. YAS provides paramedic support to football and rugby league clubs within Yorkshire, county and international cricket matches and horse racing events.

They also provide First Aid and other training to clubs, companies and community groups and actively promote life support in schools, clubs and voluntary groups through our community defibrillator programme.
The Trust's Purpose, Vision and Values were refreshed in September 2017 following wide consultation with their staff and stakeholders:

**Our Purpose**

To save lives and ensure everyone in our communities receives the right care, whenever and wherever they need it

**Our Vision**

To be trusted as the best urgent and emergency care provider, with the best people and partnerships, delivering the best outcomes for patients

**Our Values**

NHS Improvement respects your privacy and is committed to protecting your personal data. We will only use personal data where we have your consent or where we need to comply with a legal or statutory obligation. It is important that you read this information together with our privacy notice so that you are fully aware of how and why we are using your data.

Appendix 2: Making an application

If you wish to be considered for this role please provide:

- a CV that includes your address and contact details, highlighting and explaining any gaps in your employment history

- a supporting statement that highlights your motivation for applying and your understanding of the NHS and the role. You should outline your personal responsibility and achievement within previous roles and how your experience matches the person specification

- the names, positions, organisations and contact details for three referees. Your referees should be individuals in a line management capacity, and cover your most recent employer, any regulated health or social care activity or where roles involved children or vulnerable adults. Your references may be taken prior to interview and may be shared with the selection panel

- please complete and return the monitoring information form which accompanies this pack and is available for download

- tell us about any dates when you will not be available
Appendix 3: Key dates

- **closing date for receipt of applications:** 4 September 2018 at 11am. Please forward your completed application to NHSI.Chairsandneds@nhs.net

- **interview date:** 20 September 2018

- **proposed start date:** 1 October 2018

Getting in touch

- For an informal and confidential discussion with Kathryn Lavery, the Chair of the Trust regarding the role, please contact Dawn Cronian on 01924 584066.

- **NHS Improvement** – for general enquiries contact Miriam Walker on 0300 123 2059 or by emailing miriam.walker@nhs.net
About NHS Improvement

NHS Improvement is responsible for overseeing Foundation Trusts, NHS Trusts and independent providers. We offer the support these providers need to give patients consistently safe, high quality, compassionate care within local health systems that are financially sustainable. By holding providers to account and, where necessary, intervening, we help the NHS to meet its short-term challenges and secure its future.

NHS Improvement is the operational name for the organisation that brings together Monitor, NHS Trust Development Authority, Patient Safety, the National Reporting and Learning System, the Advancing Change team and the Intensive Support Teams.
