collaboration trust respect innovation courage compassion

We value and promote diversity and are committed to equality of opportunity for all and appointments made on merit. We believe that the best boards are those that reflect the communities they serve.

We particularly welcome applications from women, people from the local black and minority ethnic communities, and disabled people who we know are under-represented in chair and non-executive roles.

Our recruitment processes are conducted in accordance with the Code of Governance to ensure that they are made on merit after a fair and open process so that the best people, from the widest possible pool of candidates, are appointed.

Essential criteria

You will need to have a genuine commitment to patients and the promotion of excellent health care services. You will have recent, relevant finance experience in a large and complex organisation and a financial qualification.

- shape and actively support a healthy culture for the trust

All non-executive directors must **champion the standards of public life** – by upholding the highest standards of conduct and displaying the principles of selflessness, integrity, objectivity, accountability, openness, honesty, and leadership.

As a future NHS leader, the successful candidate will be able to demonstrate the range of behaviours required to contribute effectively in this board level role. These are outlined in the NHS Leadership Academy's [Healthcare Leadership Model](#).

Applicants should live in or have strong connections with Nottingham.

Given the significant public profile and responsibility members of NHS Boards hold, it is vital that those appointed inspire confidence of the public, patients and NHS staff at all times. NHS Improvement makes a number of specific background checks to ensure that those we appoint are “fit and proper” people to hold these important roles. More information can be found on our [website](#).

As a teaching trust, NUH has a strong relationship with its colleagues at The University of Nottingham and other universities across the East Midlands, including Nottingham Trent and Loughborough Universities, the latter being where the Trust is part of the Olympic Legacy project. It plays a vital role in the education and training of doctors, nurses and other healthcare professionals

Over 1,000 NUH staff contributed to the development of a set of values that underpin NUH's desire to continue to provide the highest quality of care to patients and each other and improve the services it provides. They are shared across the whole of NUH and inform every action taken by the Trust and its staff, every decision made and the behaviours of everyone involved with the Trust.
